HIGHLANDER MILK

The Highest Standard

Surely there is nothing in which so high a standard of purity is so necessary as in the household milk supply. Medical authorities have for years preached the fact that ordinary milk is too often a menace—it is laden with disease-bearing germs and responsible for much of the disease of to-day.

And yet a perfectly sterile and germ-free supply of the richest, purest (full cream) milk is always available for you direct from the country whose dairy produce—because it is the best in quality—brings the highest prices in the world's markets.

The milk used in Highlander Condensed Milk is drawn from cows from the rich pastures of Southland, New Zealand. Infinite care, scrupulous cleanliness, the most modern scientific methods—carefully tested cows from specially selected herds—all these combine to produce Highlander—the Condensed Milk that sets a new standard of quality.

Have you tried Highlander?—you owe it to yourself to do so. There's a Free copy of the Highlander Cookery Book awaiting you—nearly 200 beautifully illustrated pages of practical, economical tested recipes. Send your name and address to—"Highlander," Dept. "A," Fred L. Waldron, Ltd., Agents, Honolulu.
